PROJECTS

Online Exam Portal:

- ⑨ The purpose of online test simulator is to take online test in an efficient manner and no time wasting for checking the paper. The main objective of online test is to efficiently evaluate the candidate thoroughly through a fully automated system that not only saves lot of time but also gives fast results. For students they give papers according to their convenience and time and there is no need of using extra things like paper, pen etc. To conduct a test with monitoring system so that no one can cheat in test.

Furniture Ecommerce:-

- ⑨ The proposed Furniture Ecommerce system is a robust online platform designed to streamline the shopping experience for customers. It features a user-friendly interface that allows customers to easily browse, search, and filter furniture by categories such room, style, material, and price.
